Receipt is acknowledged of this provisional patent application. It will not be examined for patentability and will become abandoned not later than twelve months after its filing date. Any correspondence concerning the application must include the following identification information: the U.S. APPLICATION NUMBER, FILING DATE, NAME OF FIRST INVENTOR, and TITLE OF INVENTION. Fees transmitted by check or draft are subject to collection.

Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please submit a written request for a corrected Filing Receipt identifying the requested changes, preferably by including a properly marked-up ADS showing the changes with strike-through for deletions and underlining for additions. If you received a "Notice to File Missing Parts" or other Notice requiring a response for this application, please submit any request for correction to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections provided that the request is grantable.

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4258).

LICENSE FOR FOREIGN FILING UNDER**Title 35, United States Code, Section 184****Title 37, Code of Federal Regulations, 5.11 & 5.15****GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier

license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

Privacy Act Statement

The **Privacy Act of 1974 (P.L. 93-579)** requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether disclosure of these records is required by the Freedom of Information Act.
2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.
3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.
4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).
5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.
6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).
7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (*i.e.*, GSA or Commerce) directive. Such disclosure shall not be used to make determinations about individuals.
8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspection or an issued patent.
9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

Under the Paperwork Reduction Act of 1995 no persons are required to respond to a collection of information unless it displays a valid OMB control number

INVENTION DISCLOSURE FORM

To better enable us to assist you in obtaining patent protection, we have listed our questions/queries below. Please answer the following questions in detail.

1. Please provide a TITLE for the invention.

Ans: Receipta – Receipt providing API and mobile receipt management app

2. Please list the primary inventor's full name and address of residence.

Ans: Rauf Heydarli 1897 Oracle way, apt 908 Reston, VA 20190

3. Please list all the co-inventors' full names and addresses of residence (if any).

Ans: N/A

4. Please describe the problems that you were trying to solve.

Ans: Receipta solves all below mentioned problems by collecting all digital receipts automatically in one place thus, eliminating the need for paper receipts.

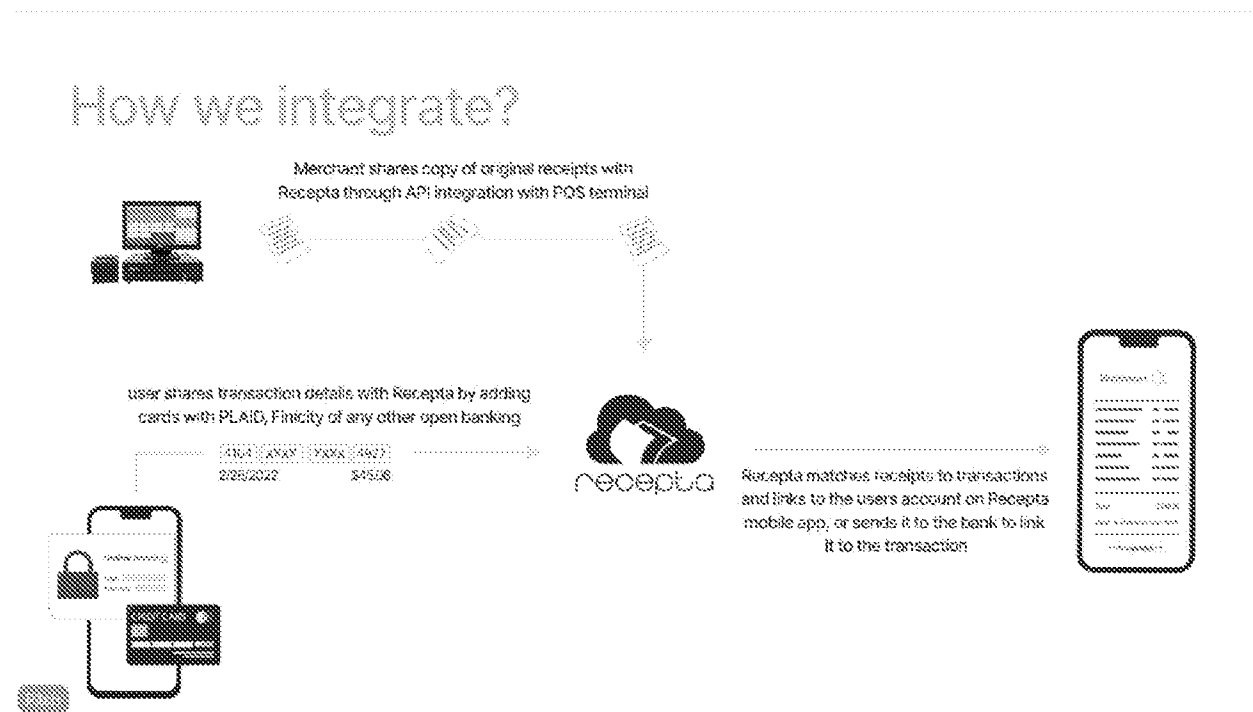

- Paper receipts are likely to get lost or misplaced and as they contain enough of your information, the security is threatened.
- Paper receipts are made of special thermal paper that cannot be recycled.
- The thermal paper contains toxic Bisphenol A (BPA) which transfers to our skin on contact.
- It costs the retail industry billions of dollars annually (Paper, Ink, Printer, etc).
- Data from receipts never used before.
- Expense scanning takes more than 30 mins a day.
- 90% of weekly grocery newsletters are trashed.
- Average-sized paper receipt emits around 2.5g of carbon.
- People can't return items without receipts.

5. Please describe your solution in detail.

Ans: Receipta owns an API that matches consumer's digital receipts with their bank account transactions, providing digital receipts to the customers through Receipta mobile app or linking to users banking app

6. Please provide photographs/hand-drawn sketches to describe the invention (If applicable).

Ans:

7. Please list all the new/unique features and advantages of the invention.

Ans:

For Users:

- **ACCESS ANYWHERE, ANYTIME** (Receipta enables portability of expenses all the time and let's search and filter by merchant, location, date, etc. of specific receipts.)
- **PRICE COMPARISON** (Scan the barcode and compare the price of product with other merchants)
- **SAVE PAPER to SAVETREES** (Reduce the amount of paper being dumped into landfills each year.)
- **PORTABLE REWARD CARDS** (Save all reward cards in one place, and scan it easily at any merchant.)
- **AUTOMATED CASH BACK/LOYALTY** (It doesn't matter where you buy products, you get cashback based on products you purchase.)
- **EXTENDS BEYOND RECEIPTS** (Receipta will also scan warranty, guarantee or any other documents that need to be digitized.)
- **LESS STRESSFUL TAX RETURNS** (Share your expense summary and receipts with your accountant or tax professional with the click of a button.)
- **BETTER ANALYTICS** (There will be no more paper clutter in your car, wallet, purse, home, or office which will also help you to organize your receipts by category to get an instant

snapshot of your spending. Example: check how much you spend at Walmart this month, or how much you spend for Lattes at Starbucks)

- **ALL THESE ABOVE-MENTIONED FEATURE IN ONE SINGLE APP**

For Merchants:

- **REDUCED CARBON FOOTPRINT** (No more paper receipts)
- **REDUCED EXPENSES ON PAPER AND PRINTING** (Thermal paper receipts cost the retail industry billions of dollars annually.)
- **CUSTOMER PROFILING** (We help businesses better understand customer needs to engage in personalized post purchase marketing.)
- **FASTER CHECKOUT AND REDUCED LABOUR COST** (Digital receipts speed up the checkout process and reduce overhead operating costs.)
- **INSTANT FEEDBACK** (Receipta does this with unparalleled simplicity by asking a simple yes or no question on the customer's screen after every purchase.)
- **REAL TIME DATA ANALYSIS** (With Receipta, you can get to know your customers and their individual needs with greater clarity and accuracy, leading to higher customer satisfaction, greater loyalty, and more referrals.)
- **PRODUCT BASE LOYALTY/CASHBACK** (Automated coupon records will increase utilization and improve customer loyalty. For example: customers can buy any product without scanning rewards card, we will capture it from the receipts)

8. Please feel free to share any information that may be relevant for patent application.

Ans: We are targeting to save more than 180 million trees worldwide and 12 million in the USA annually.
