Tourism
Destinations

Individuals and young people who want to organize tours must separately find and coordinate transportation, hotels, food, and entertainment services. This process is time-consuming, inefficient, and challenging due to the limited use of technology. At the same time, local service providers operating in the regions have restricted access to the market.

INNOVATION AND COMPETITIVE ADVANTAGE

Unlike its competitors, Turizy.az is the first platform to integrate all essential services required for organizing a tour—transportation, food, accommodation, and entertainment—into a single system. The platform allows users to create tour packages, set prices, and generate revenue from sales.

1

Enables anyone to operate as a micro-entrepreneur

2

Increases tourism activity in regional areas

3

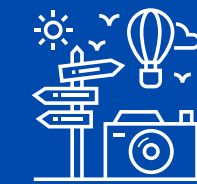

Brings local service providers onto the digital marketplace.

ROADMAP

- Within one year, we will register all transportation services, hotels, restaurants, and tourist attractions in Azerbaijan on our platform. Already, 40% of this work has been completed.
- We plan to establish B2B partnerships with 100 companies within one year—currently, we are collaborating with nearly 15.
- We aim to attract over 1,000 users within one year. At present, we have more than 25 regular users.
