Revolutionizing the Future of Receipts with

Scan for your Receipt
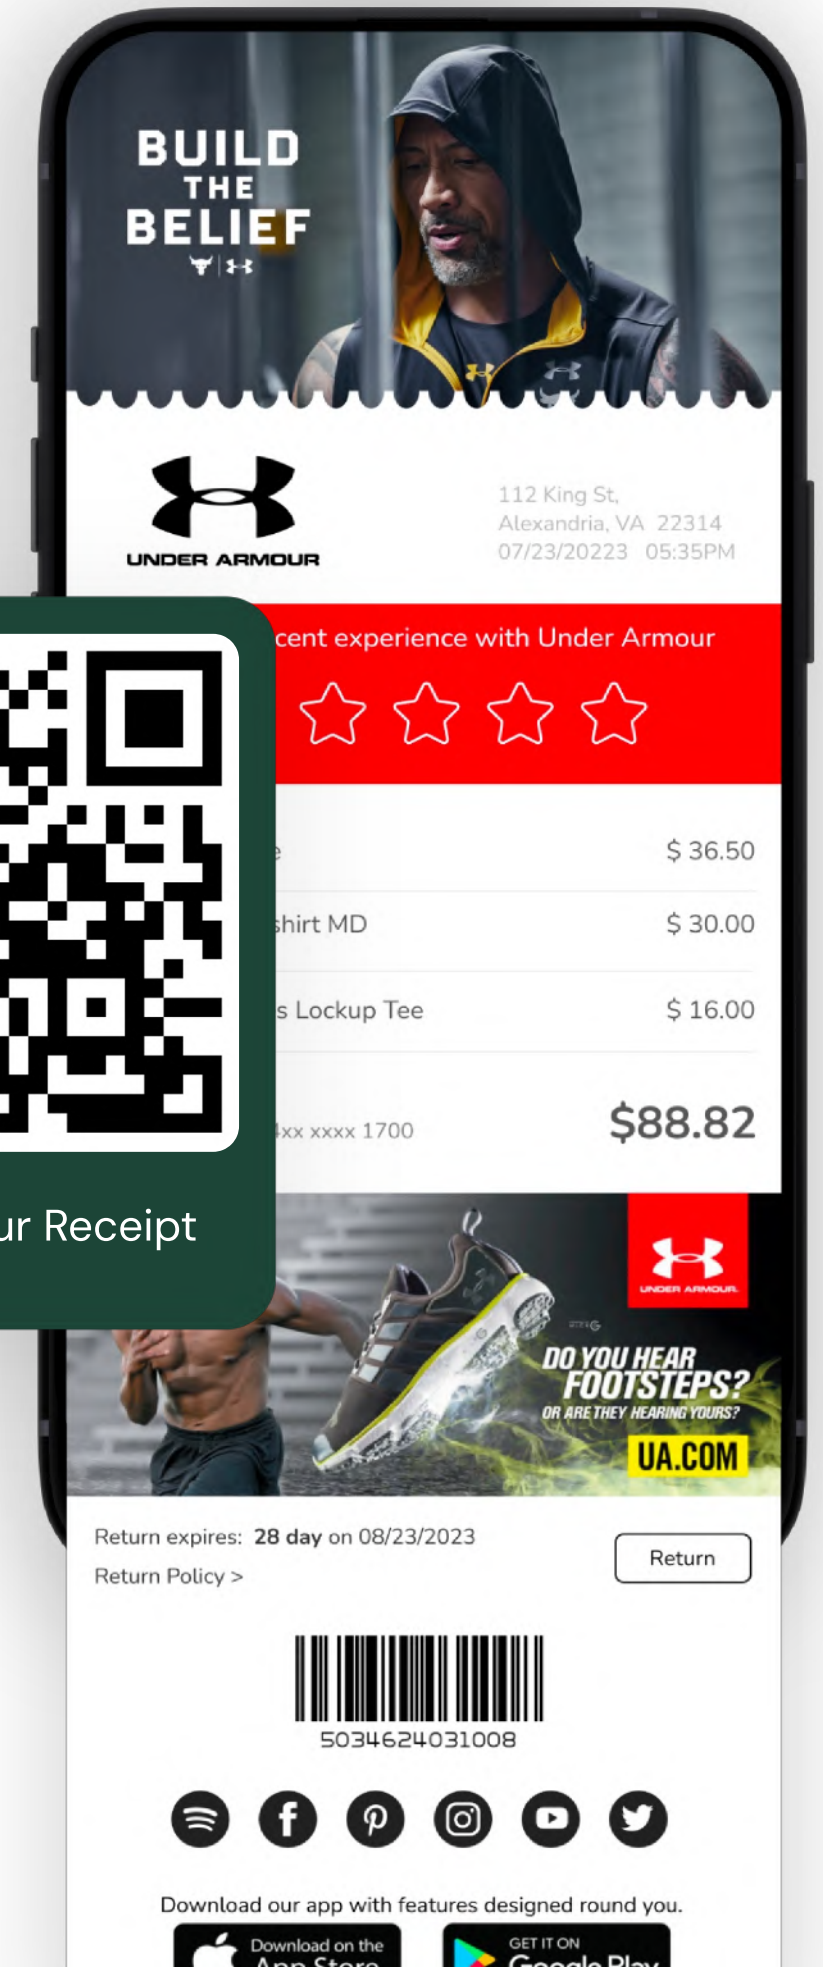

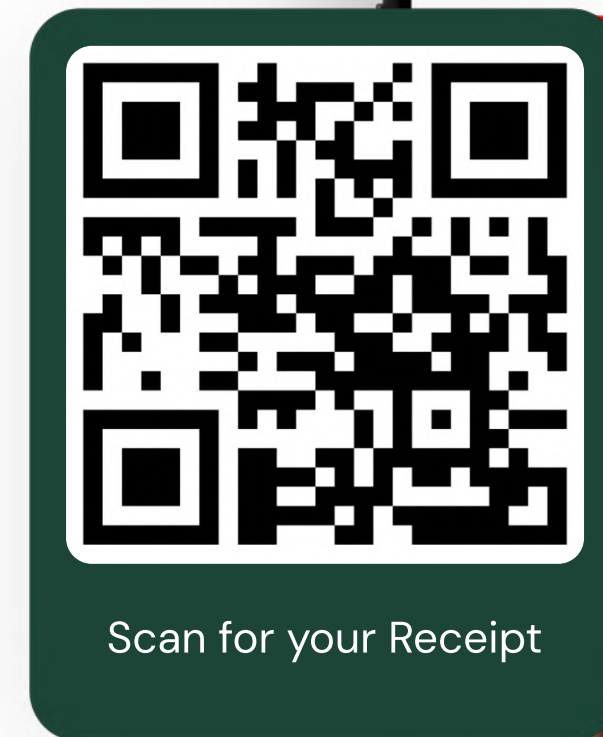

Try Pitch

Problem

Traditional paper receipts are costly, harm the environment, and don't help to identify customers.

- Paper Waste
- Data Gap
- High Costs

Solution

Fast API to deliver
digital receipts **without** requesting
personal data

- 5 min API integration
- Works with any current POS
- QR for the first time users
- No email, phone # required

Try Pitch

How it works

Merchants can self-integrate with our API in just 5 minutes, customizing receipts with logos, surveys, ads, and much more.

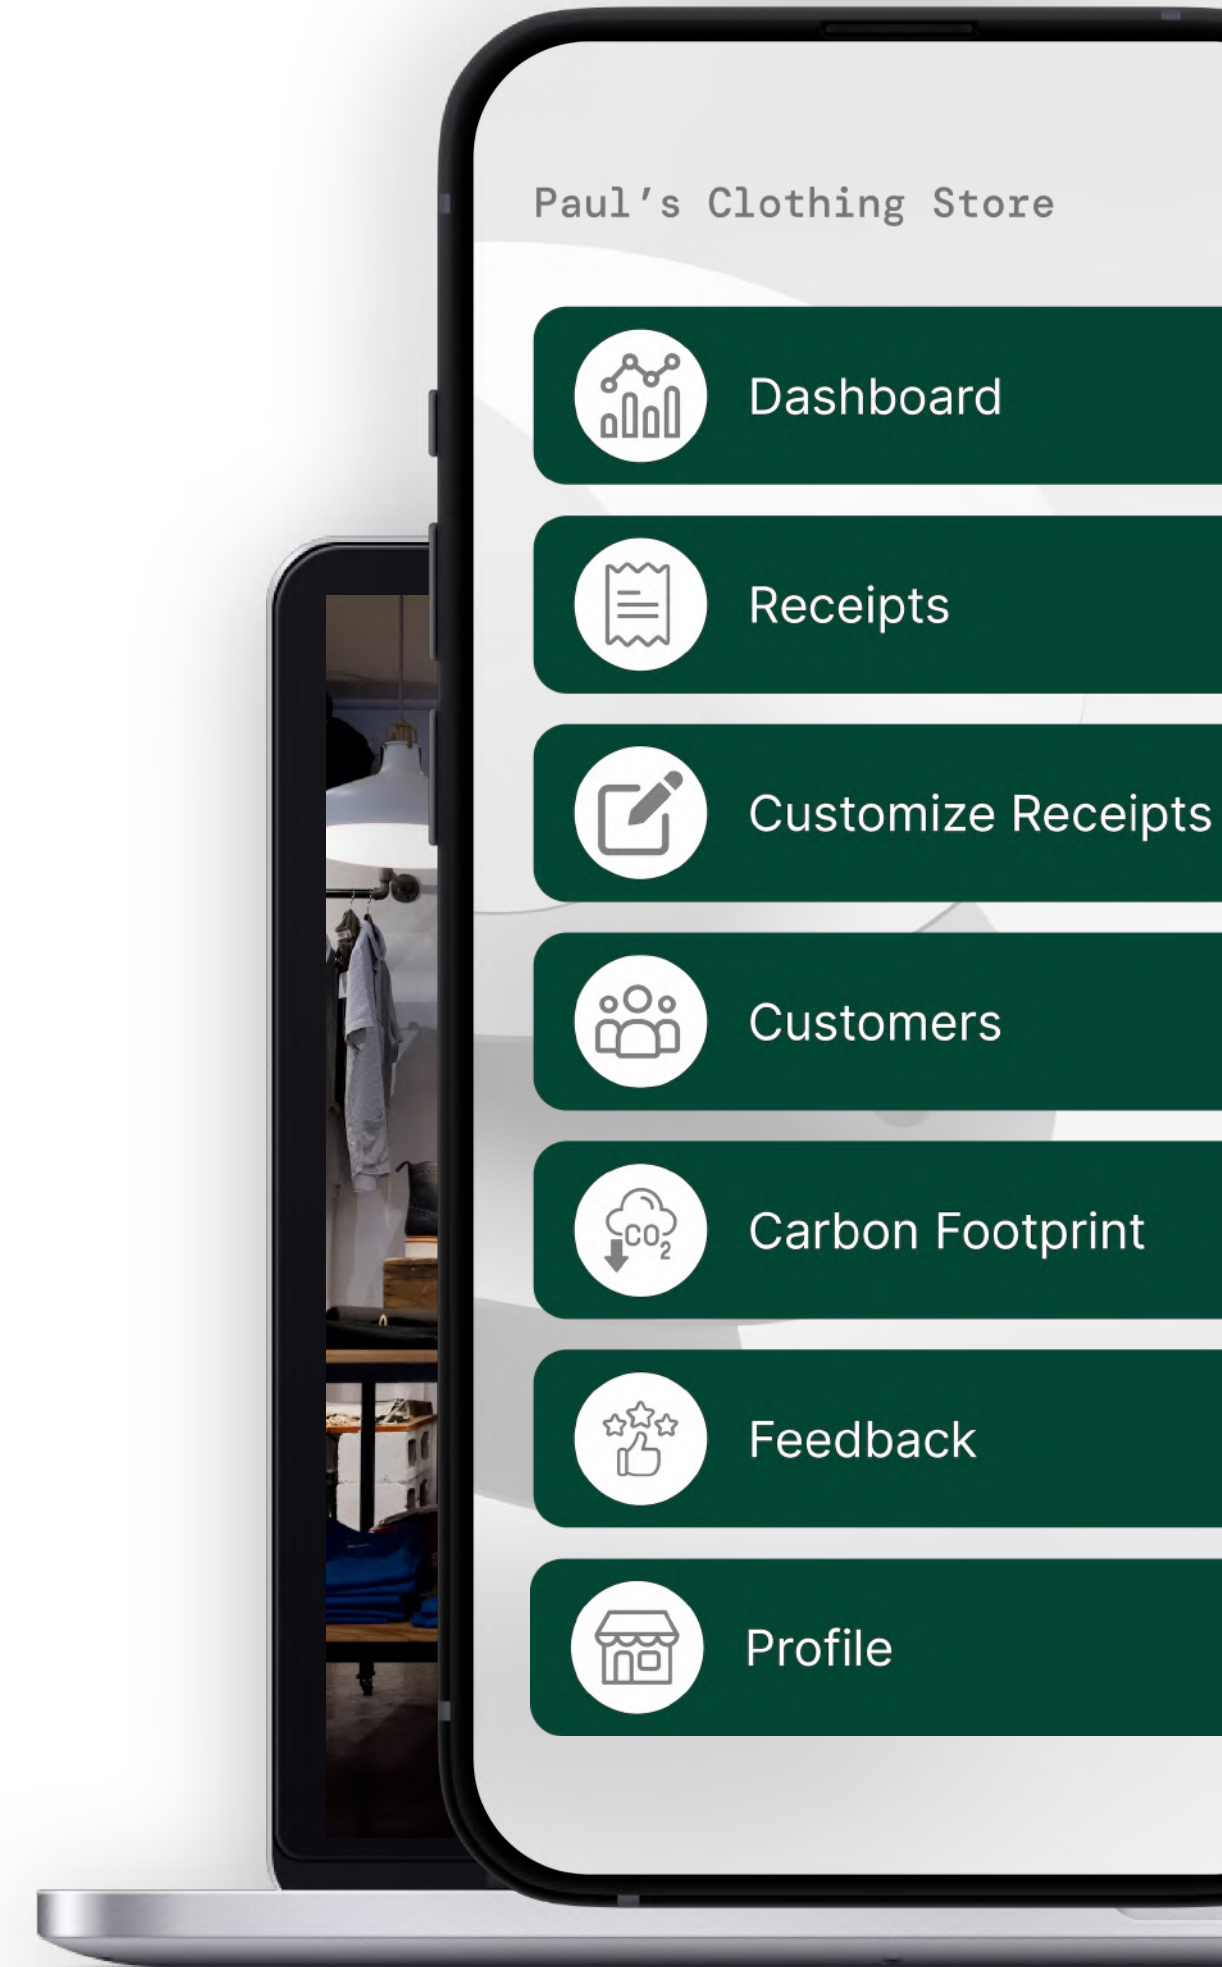

Customers simply make their payment as usual

scan the QR code or tap the phone (NFC)

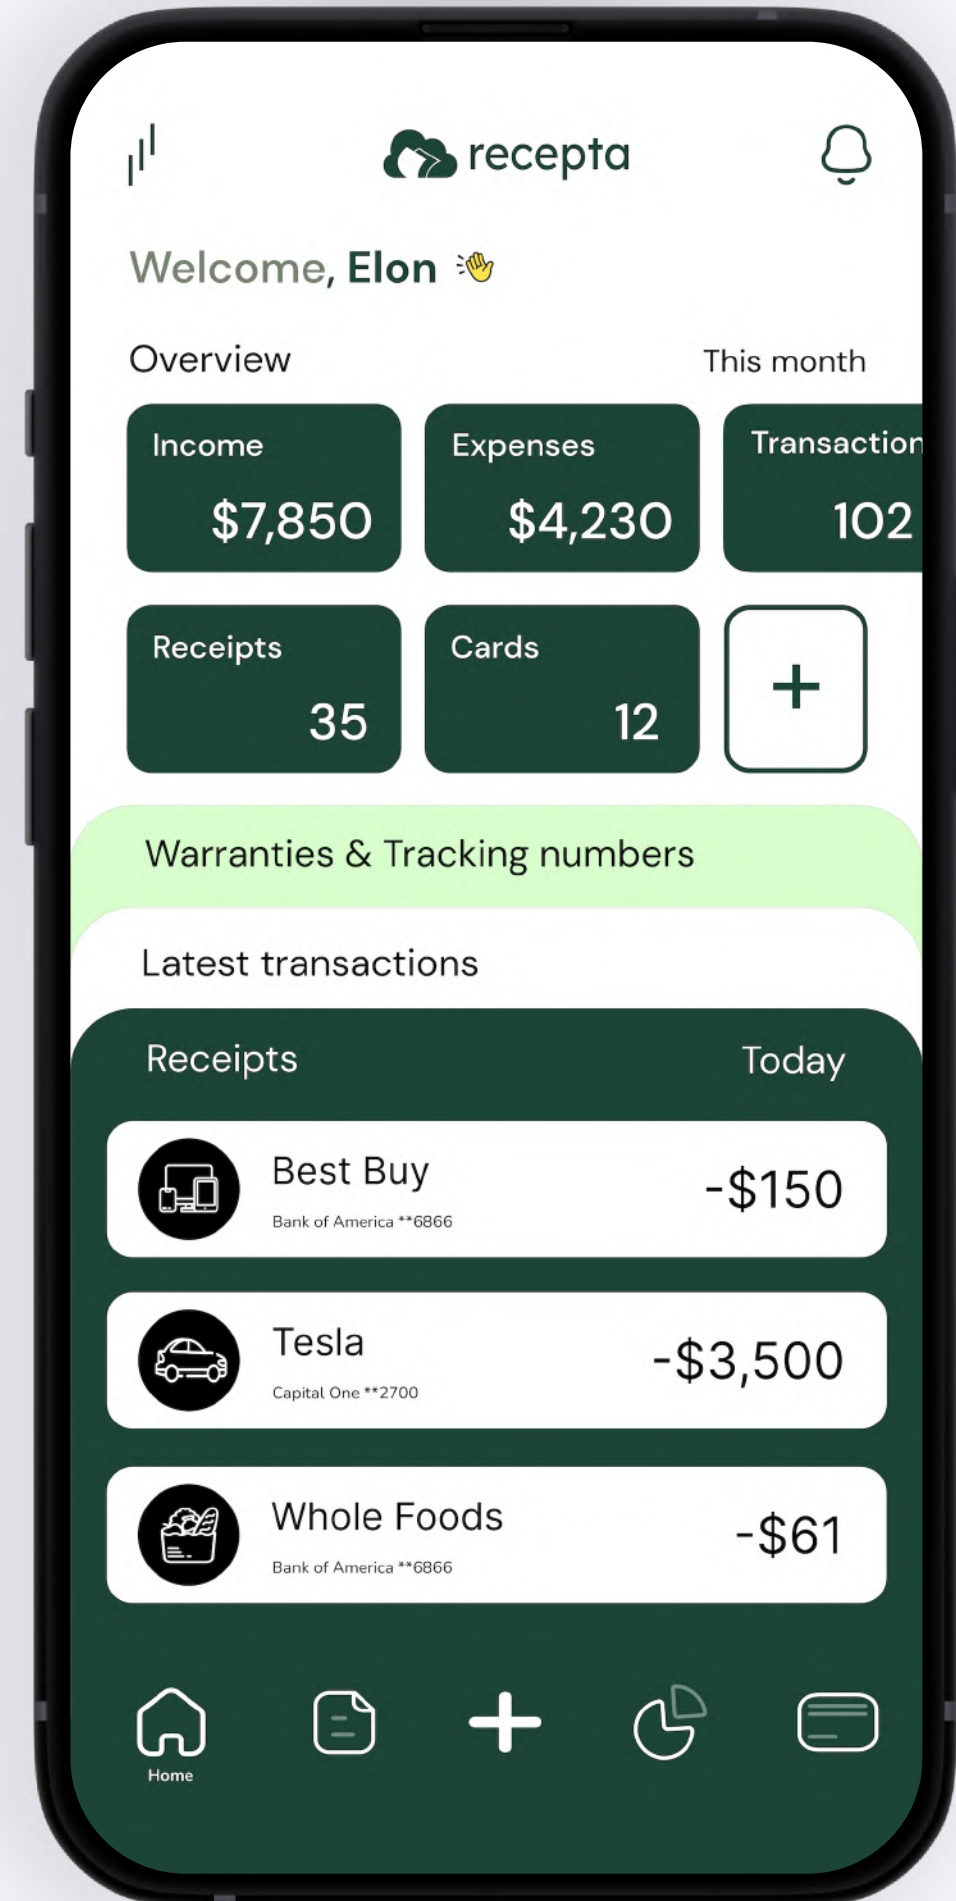

In seconds, they receive their digital receipt
